Manual

DIAZ | SUNPROTECTION

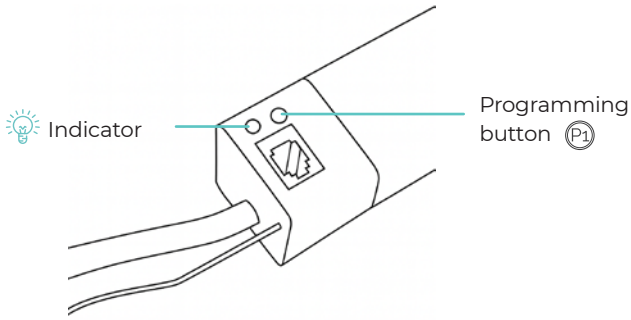

Diaz B.I. Adagio 230V motor

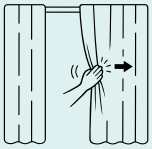

Introduction

If your motor does not respond as described in this manual, please proceed to troubleshooting. (pg 5).

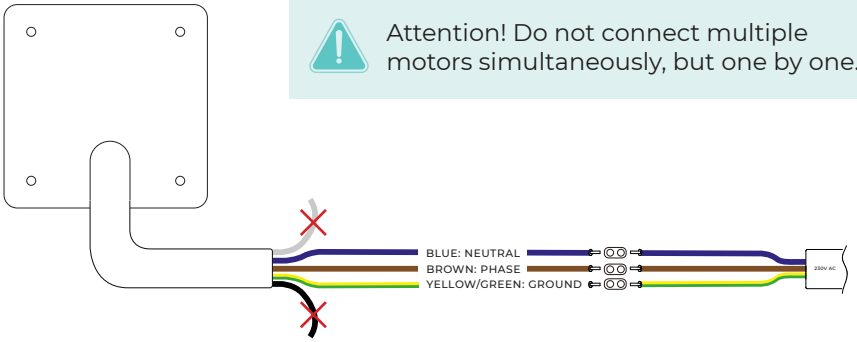

TOUCH&GO:
Automatic operation is also possible by briefly pulling the curtain.

Quick start guide

1 Connecting the power

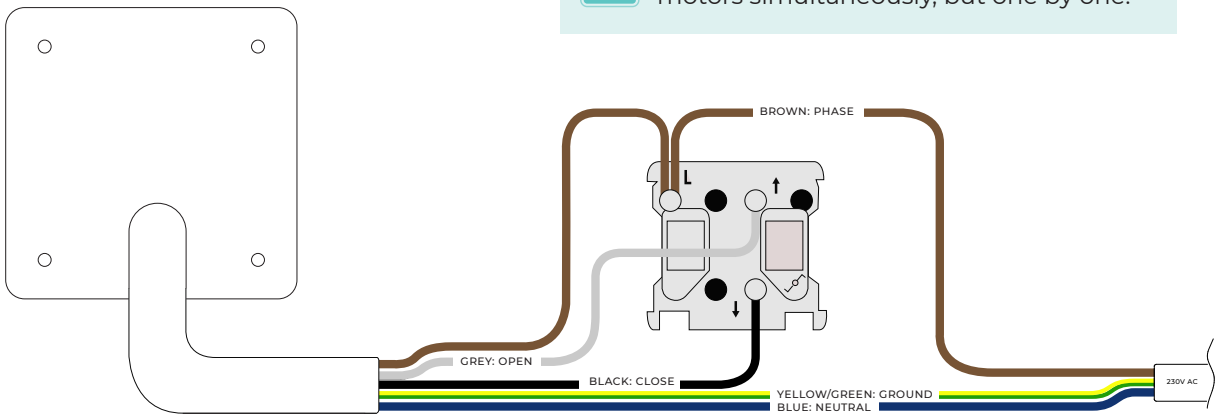

1.1 230V motor with remote control

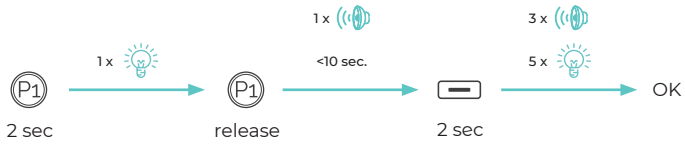

Attention! Do not connect multiple motors simultaneously, but one by one.

1.2 230V motor with switch

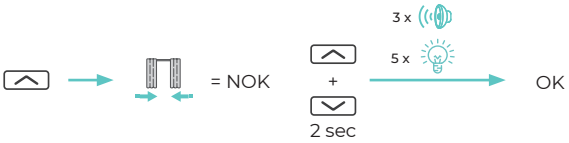

Attention! Do not connect multiple motors simultaneously, but one by one.

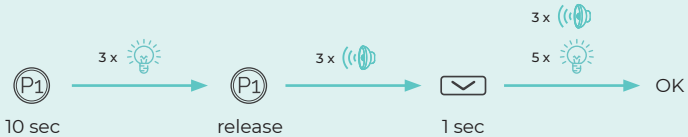

2 Pair the first remote

3 Draairichting controleren / aanpassen

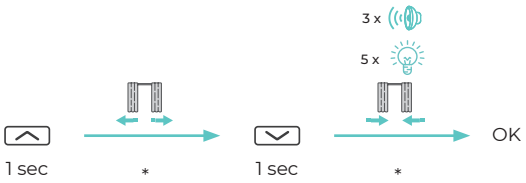

Alternative method

Attention! Adjust the rotation direction before programming the end points.

4 Program endpoints

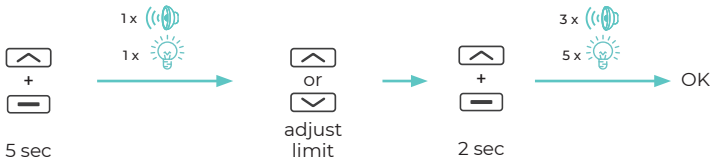

* Allow the motor to run completely to both ends. The motor will detect the endpoints automatically and memorize them.

Optional

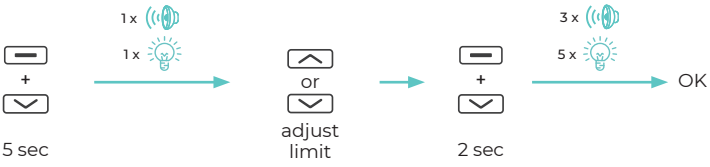

1 Edit endpoints

> You can only adjust the end positions by using a linked transmitter.

1.1 Edit endpoint

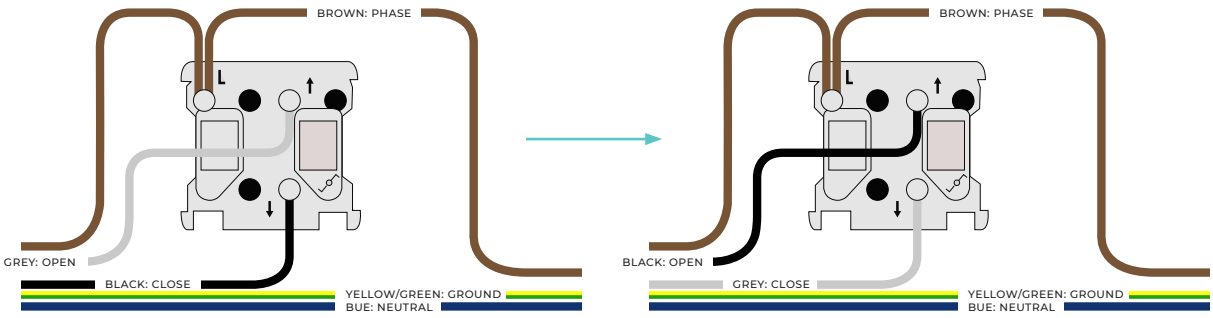

1.2 Edit endpoint

2 Changing the rotational direction

2.2 230V motor with switch control

To reverse the direction of rotation, we change the connection of the black and grey cables in the switch.

3 Favourite position ★

3.1 Set up

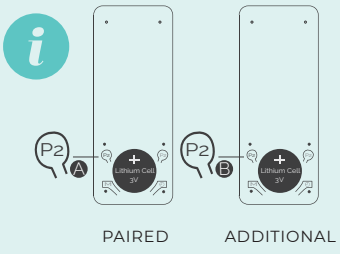

3.2 Go to favourite position

> This function is only possible with a product with remote control.

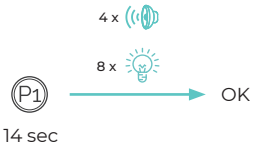

4 Pair/remove additional remote/channel

Troubleshooting

1 Reset motor

> After the reset of the motor you need to go through the quick start guide again.
