DIAZ | SUNPROTECTION

Motion Bluetooth curtain motor
Programmation via remote control

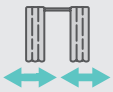

Introduction

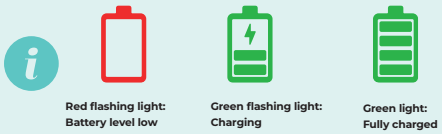

If your motor doesn't respond as described in this manual, please proceed to troubleshooting (pg 3).

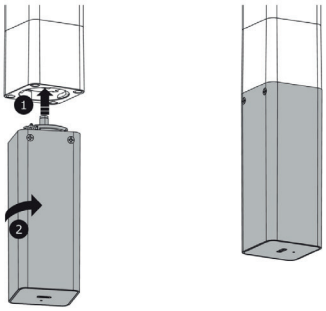

Push the programmation button P1 1x to (de)activate the programmation mode

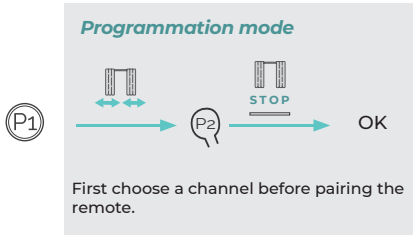

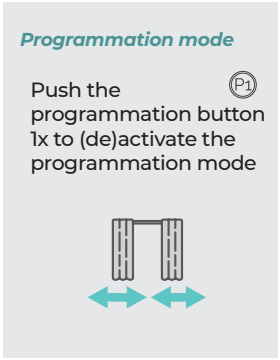

Quick start guide

1 Activate the curtain by turning the battery onto the motor

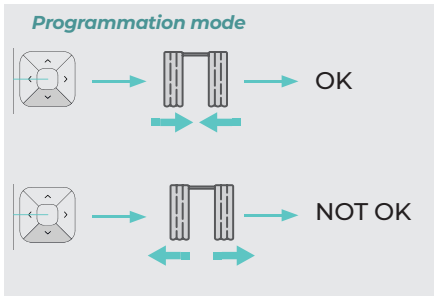

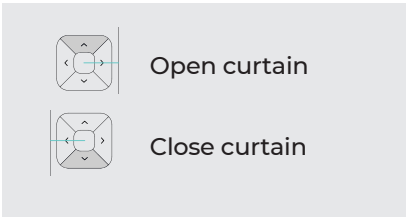

2 Pair the first remote

3 Check rotational direction

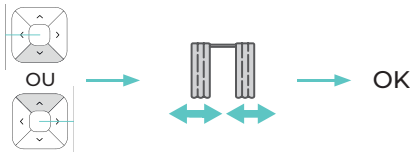

Adjust:

4 Program endpoints

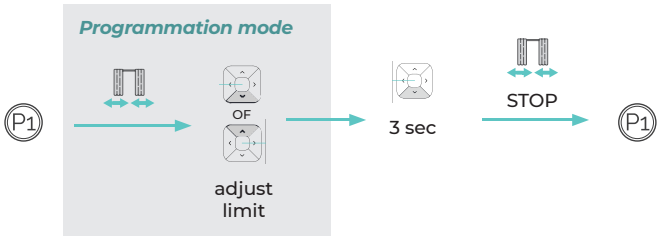

Allow the motor to run completely to both ends. The motor will detect the endpoints automatically and memorize them.

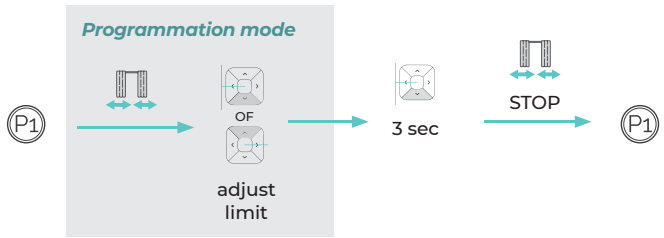

Optional

1 Adjust endpoints

1.1 Endpoint in closed position

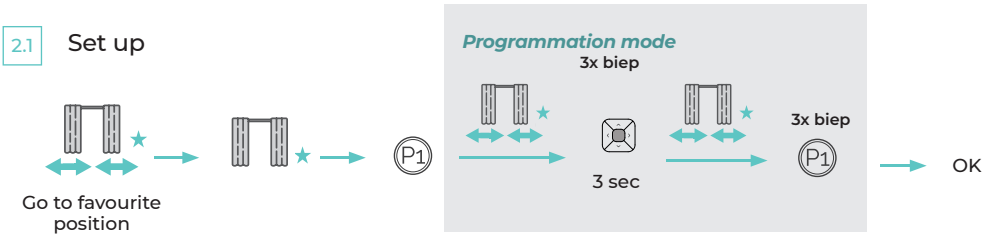

1.2 Endpoint in open position (in package)w

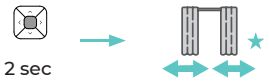

2 Favourite position

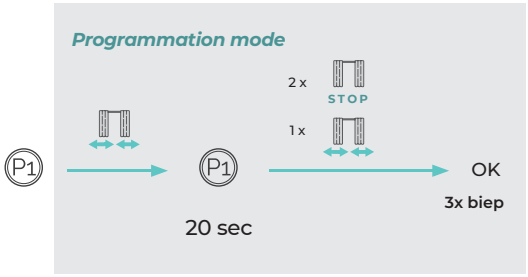

2.1 Set up

2.2 Go to favourite position

Troubleshooting

After the reset of the motor you need to go through the quick start guide again.

If you have any further questions about the programming of this type of motor, scan the QR code and ask your question.
