WARNING! Installation Child Safety!

- Young children can suffocate in the loop of the operation cords, chains,tapes and cords with which you operate your window decoration. They can also wrap the cords around their neck.
- Keep the cords out of reach of young children to avoide strangulation and suffocation.
- Place beds, cribs and other furniture away from the cords of the window decoration.
- Do not tie the cords together. Make sure the cords don't get strangled or make a loop.
- Install and use the delivered parts for child safety according to the installation instructions to reduce the risks of strangulation and suffocation.

All our blinds are conform to the European "Child Safety" standards (EN13120).
